

# **Israel is only with the conquered land.**

Israel were basically the captives in Egypt. When Israel conquers others' land they are with their own land as their promised land.

The present land of Canaan was inherited by the forefathers thousands of years ago in which the previous generations of the modern Israel got re-entry into their homeland and now it has become the land of modern Israel who have already possessed it.

When we carefully read and understand 'the Tanakh,' from 2024 Israel conquers Gaza the land of Palestine as their own land.

They will leap upon the slopes of Philistia to the west; . . .

(Isaiah 11:14)

. . . over Philistia will I triumph (Psalms 108:9).

Because of this present war, Gaza becomes desolate (Zephaniah 2:4) in which only David Ben-Gurion planned for the canal, now as the Ben-Gurion canal for us, which would be the Millennial canal for the future generations.

**Israel is always without their own land but they are strangers and sojourners with the Lord (Leviticus 25:23). *They are with the developed promised land Gaza the land of Palestine from now. Here is to be built the desired Ben-Gurion canal under the possession of modern Israel.***
